

May 10, 2010

CN Number: 1004

CN Change Level: Major

Subject: Part Marking Methodology Change for Actel Products

Dear Customer,

This notification is to inform you that there is a change in the part marking methodology for Actel plastic products.

This change affects all plastic packages with the exception of some of the smaller Chip Scale (CS) packages. See [Table 1 on page 3](#) for affected part numbers.

This change will not affect the existing marking of ceramic packages.

This change will not affect the fit, function, quality, or reliability of the part. There is no change to the content of the marking on the part; only in the location of the marking.

There will be no change to the location of the customer-specific marking for units programmed by Actel.

Currently the marking for the product temperature grade (example, “I” for industrial, “M” for military) may be marked on the top right hand corner of the package. The speed grade is marked on the second line on the device. The existing product temperature and speed marking methodology is illustrated in [Figure 2 on page 2](#).

The new marking methodology, illustrated in [Figure 3 on page 2](#), will utilize laser marking at the assembly vendors. The following designators will be located, as applicable, on the bottom left corner of the device:

- Product temperature grade (example: “I”)
- Speed grade (example: “-1”)
- Part number prefix (example: “M1”)
- Low power designator (example: “L”)

The country of origin will be marked at the bottom right corner using a three-letter abbreviation as specified in ISO3166-1, alpha 3.

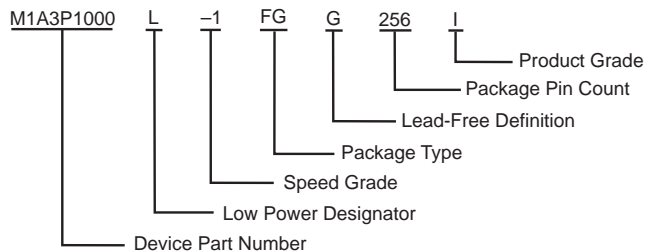

Figure 1 • Product Ordering Information (example for M1A3P1000L-1FGG256I)

Figure 2 • Sample of Existing Marking (M1A3P1000L-1FGG256I)

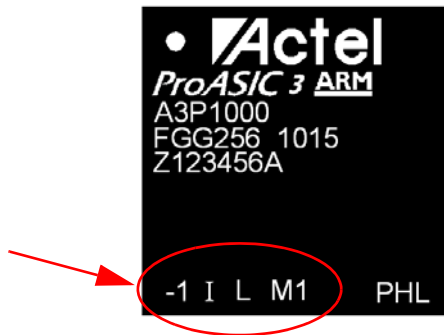

Figure 3 • Sample of New Marking (M1A3P1000L-1FGG256I)

The reason for the change is to improve Actel's ability to support product effectively, reduce manufacturing cycle time, and minimize marking errors.

Effective 90 days from this notification, Actel will begin shipping products with the new part marking.

For questions regarding this notification, please contact the Actel Technical Support hotline at tech@actel.com.

Sincerely,

Actel Corporation
